UNHCR planned to launch a tender for Solar Items among suppliers short-listed. UNHCR invited the shortlisted potential suppliers for these products for a Round Table discussion on technical aspects of the products in the portfolio, in particular in regard to technical specifications. On UNHCR's side, technical and procurement experts from the Geneva and Budapest Offices presented a Meeting, where an expert has assisted with initial product concepts.

The Facilitator participated in the Round Table Discussion, leading and structuring the discussions on the various points following the Agenda. The Facilitator strived to bring out as many ideas, comments and suggestions as possible from participants. At the same time the Facilitator maintained the orderly conduct of the Meeting and a positive spirit of the Meeting, working towards the same mutual goal of serving the interests of UNHCR Persons of Concern.

The Facilitator also reviewed and provided comments on the Report of the Meeting, produced by UNHCR.
